

Road Traffic Products

Righton Blackburns offers a comprehensive range of materials and components tailored for traffic signage and street furniture.

Signpost & Fixings

Built for Strength. Designed for Safety. Engineered to Last.

Our extensive range of signposts includes steel, aluminium and a selection of passively safe options, all manufactured to meet rigorous UK standards. Whether you're installing traffic signal posts or wide-based posts for added stability, we provide solutions tailored to every environment – from busy urban junctions to rural roadways.

Passively Safe Posts

Ecoposte®

Protecting lives and the planet. A groundbreaking innovation in roadside safety and sustainability, combining passive safety engineering with fully recyclable materials.

FSP

Designed to prioritise human safety and vehicle preservation, FSP posts collapse upon impact, dramatically improving outcomes in roadside collisions.

Lattix®

A cutting edge system for enhanced roadside safety. Frangible aluminium posts that represent a fusion of safety, sustainability and structural excellence.

Himast™

Multi-directional frangible posts engineered to respond safely to impacts from any direction, height, or speed, without requiring additional barriers.

Steel & Aluminium Posts

Aluminium

Lightweight, sustainable & corrosion-resistant. Aluminium posts are ideal for durable, low maintenance signage applications.

Steel

Robust, cost-effective posts built for high-traffic environments where durability and reliability are essential. Available in painted or hot-dipped galvanised finishes.

Traffic Signal

Straight, crank and hybrid designs to suit any junction layout. Available in standard and widebase formats for added stability.

Wide Based & Belisha Beacon

Wide-based galvanised steel posts engineered for strength, stability & ease of maintenance. Ideal for junctions and pedestrian crossings.

Post Fixings

To ensure your signage stays secure and compliant, we offer:

- Clips & Banding – For round or square post mounting
- Brackets – Adjustable for multi-sign configurations
- Base Plates – Surface-mount solutions for fast deployment
- End Caps – Clean finish and internal protection

Street Bollards

Built for Safety & Strength

Engineered for Every Environment. Trusted Across the UK.

As a leading UK supplier of traffic bollards, we offer a comprehensive range of rigid and passively safe street bollards, each designed and manufactured to meet stringent safety and performance standards.

Our bollards deliver exceptional durability, impact resistance, and long-term reliability across all urban and rural settings.

Whether you're securing pedestrian zones, protecting infrastructure, or enhancing roadside visibility, our bollards are available with a complete range of ground fixings to suit every application – from surface-mounted installations to deep-rooted foundations.

Signage Components

& Fabrication Services

Precision-Crafted Products for the Road Traffic Industry.

We supply a comprehensive range of signage products and components tailored to the needs of the UK road traffic sector:

- **Alochromed & Painted Aluminium Sheet** – Durable finishes for long-lasting performance
- **Aluminium Circles, Triangles & Octagons** – Pre-cut shapes for regulatory and directional signage
- **Traffic Aluminium Composite Sheet** – Lightweight, rigid panels ideal for multi-purpose applications
- **Aluminium Rails & Tee Sections** – Structural support for sign assemblies
- **Aluminium Offset Brackets** – Secure mounting solutions for varied post configurations

In addition to our product range, we provide **bespoke fabrication services**, ensuring every component meets your exact specifications – from cutting and shaping to finishing and assembly.

Let's Build Smarter Streets

Whether you're a contractor, council, or developer, we're here to support your next project with reliable products and expert advice.

Contact us today to request a quote, technical spec sheet, or installation guide.
